Case Study 1

Digital Escape Africa

Digital Escape Africa represents a gathering of creatives working together to produce top-tier digital content.

Serving as a central hub, DEA aspires to become the preeminent and most impactful creative community and collective in Africa, dedicated to ensuring that creatives receive the full value they deserve.

digitalescape.africa

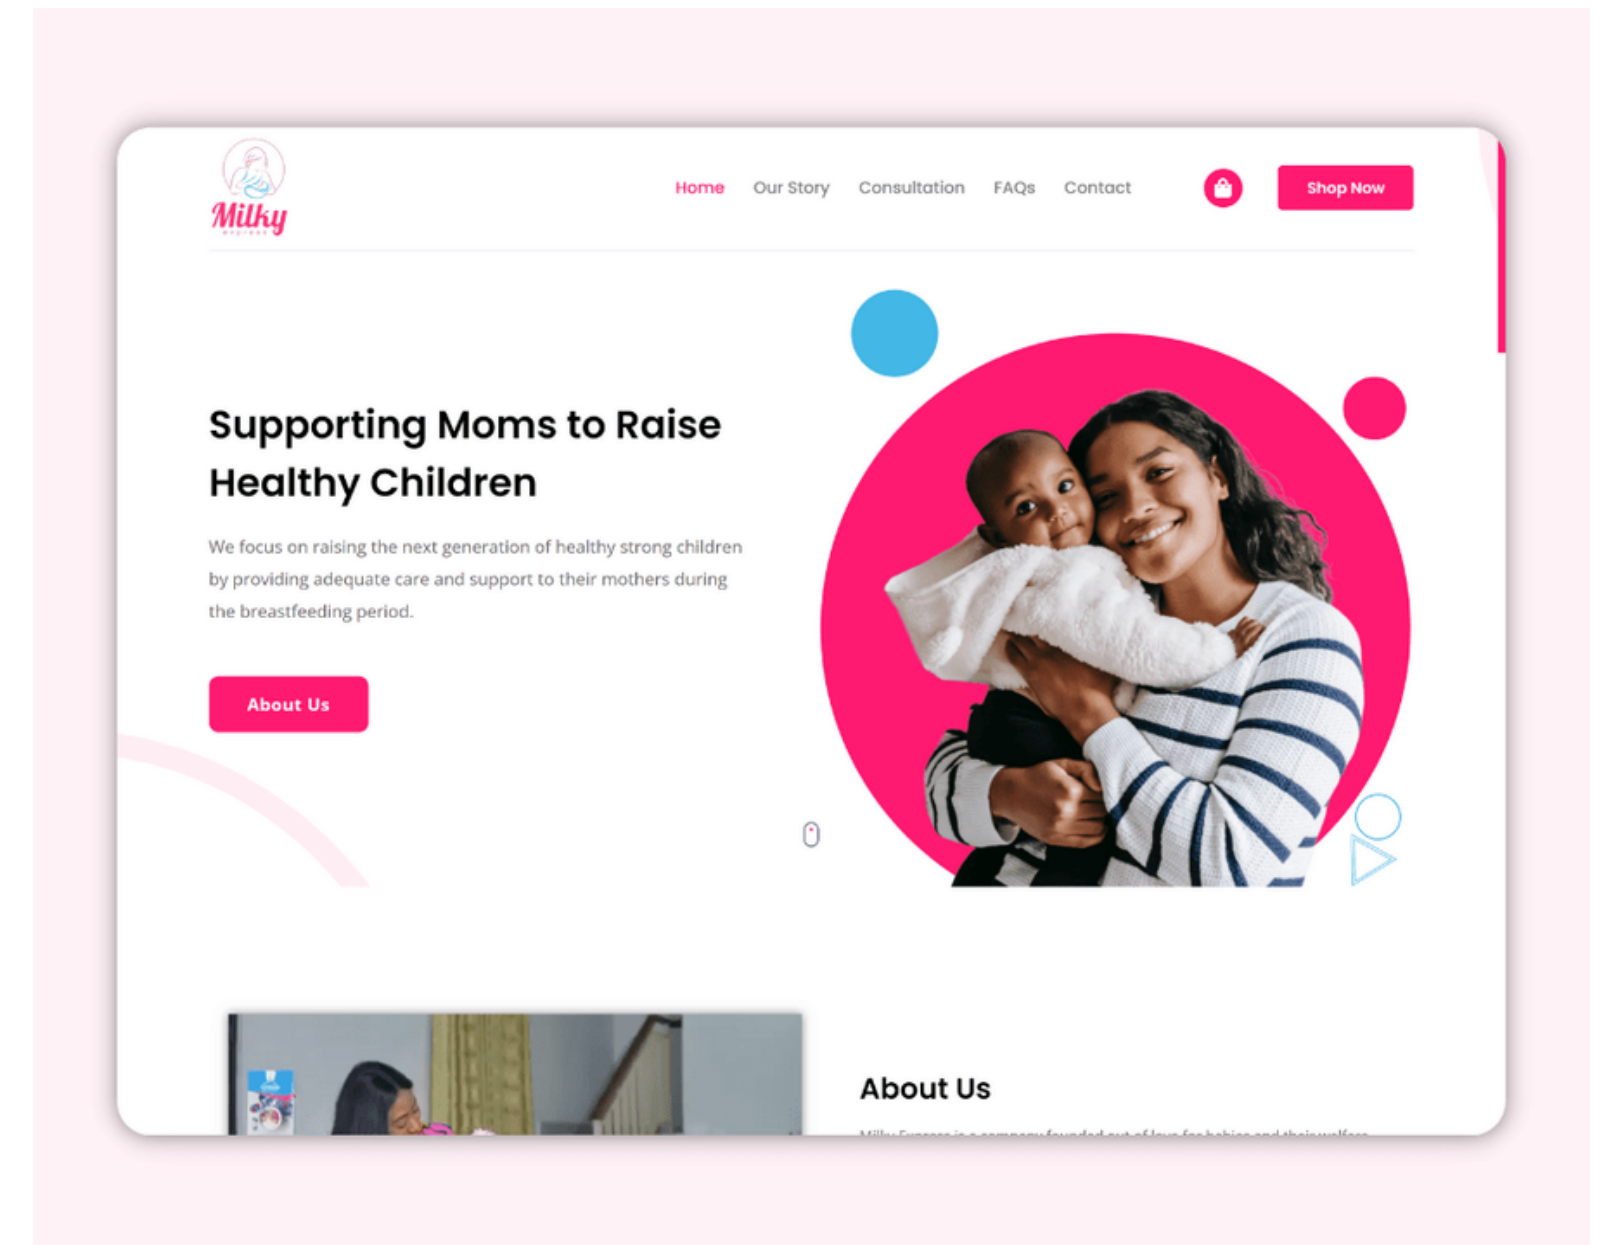

Case Study 2

Milky Express

We redesigned their website with a new UI / UX design giving it a modern look from its previous appearance. The website allows customers to view more about what they do and the services they offer. We also set up a shop to enable customers to buy products directly from the website.

milkyexpress.com

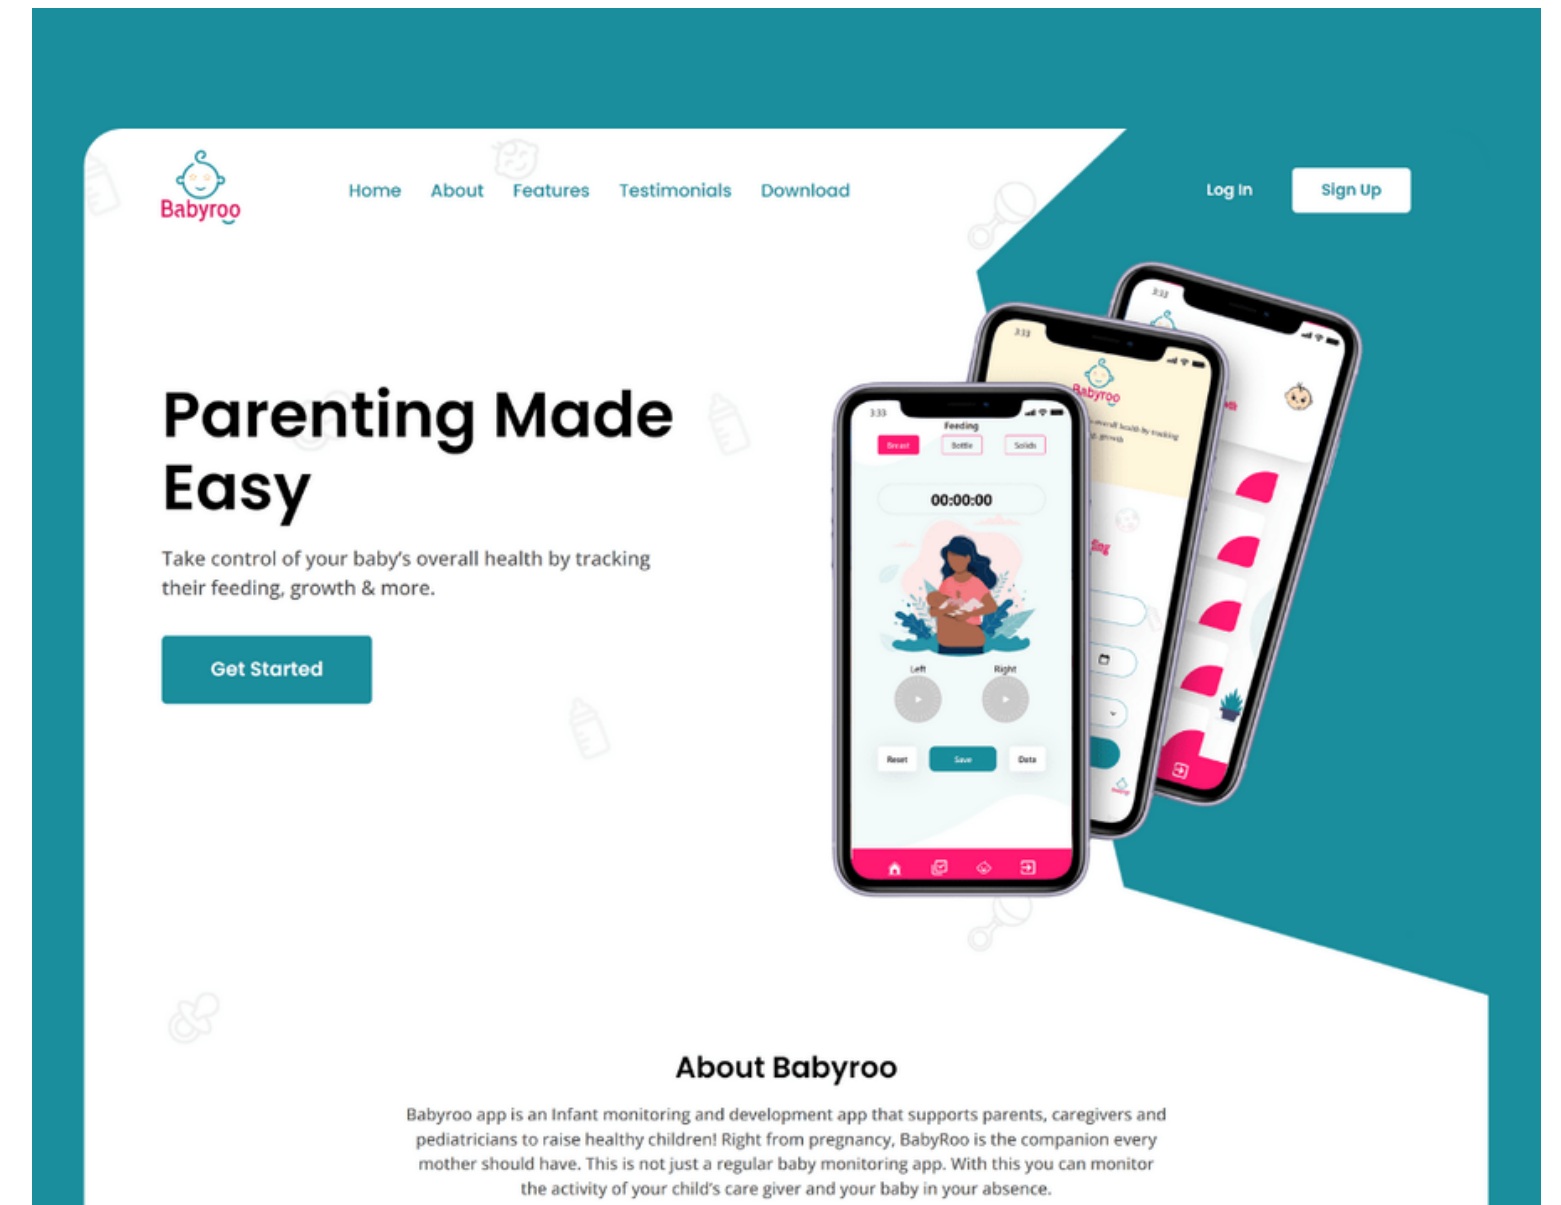

Case Study 3

Babyroo

We worked on a landing page for the mobile application so customers can have an information hub when they need more information on the application. The landing page explains what the application has to offer, some of its features, and a little glimpse of the user interface.

babyroo.com

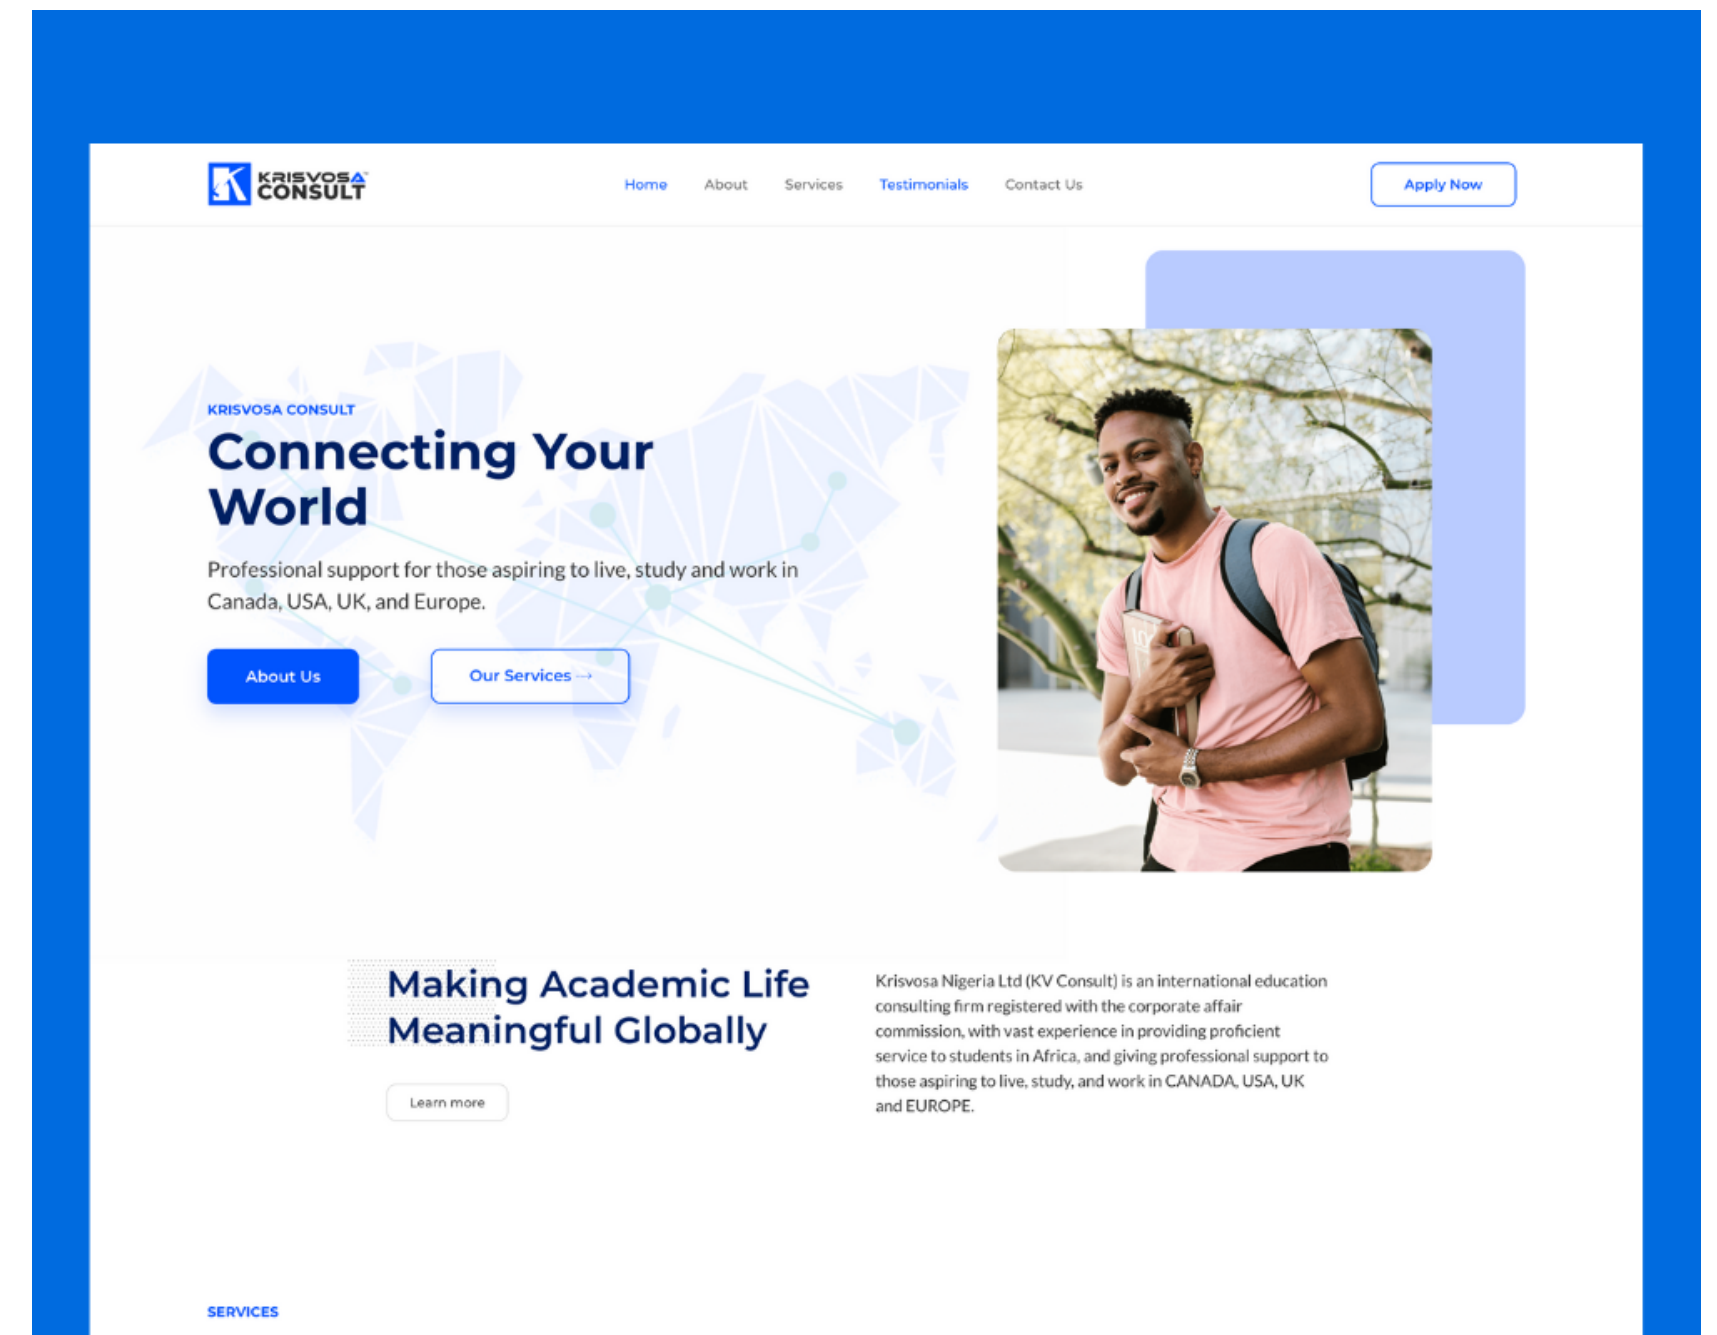

Case Study 4

Krisvosa Consult

We used a black-themed design to bring out each component of the website. It serves as an information hub for users but also a music portfolio for the company's artists. A shop was also set up to aid the company sell digital products to fans and users.
